EQUIPMENT SALES / LEASING

Worldwide Equipment Sales, LLC is the leading dealer of new and used tow trucks, self loaders, wreckers, flat beds, car carriers, and equipment trailers. With our new and used tow trucks or trailers, and our full line of towing equipment for sale, you're sure to find exactly what you are looking for at Worldwide Equipment Sales.

Headquartered in Lake Success, NY, Advantage Funding is one of the largest transportation finance firms in the United States helping commercial and vocational transportation companies grow for nearly 20 years.

Whatever your specialty, from towing to livery, first-response to motor coaches, waste-hauling to vocational trucks, they can help you obtain the financing solutions you need to grow and thrive.

FLEET TRACKING

Whether you have a fleet of 5 or 5,000, Rhino Fleet Tracking has a scalable GPS fleet management platform to help you track and maintain your vehicles and assets. Their GPS tracking solutions enable companies to identify and address the concerns that come with managing their vehicles and movable assets.

DTS is a complete solutions provider utilizing the best networks for M2M Wireless Service, our In-House advanced software design, along with the best hardware available on the market today to bring you an all inclusive one-stop shop system.

TOOLS

Since 1986, Access Tools has travelled the road to becoming the leading manufacturer of automotive lock out equipment for the locksmith industry, the towing industry, first responders, the security industry, the repossession industry, police officers, fire departments, and road service providers.

DIGITAL SECURITY

Eye3Data is a leading manufacturer and distributor of digital security surveillance products. We have developed a complete line of mobile surveillance DVRs, cameras, and wireless products to meet the growing industry needs. We are headquartered in Cincinnati, Ohio with a global distribution network of dealers, distributors, and integrators.

BATTERY PROGRAMS

Mobile Battery Solutions (MBS) is a battery retailer and provider of road side battery installations based in Concord, California. The MBS team has over a decade of experience in this category and is already in the process of setting up Road America's Independent Service Provider network throughout the United States and Puerto Rico.

The new alliance with Road America calls for Exide Technologies to supply MBS with its premium line of Exide Extreme batteries. The combination of top-quality products and first-to-market services makes the MBS program both powerful and unique.

This customized program includes:

- Free B2Q tester and iPad with opening order (\$800 value free!)
- No payment required for 90 days
- Free training with personalized on-going support
- Minimal inventory requirements
- Highest quality batteries with one of the longest free replacement warranties
- We manage and rotate batteries for you
- Potential to get more motor club volume
